If you are a first-time user, make sure to follow the instructions carefully, and do not get nervous and struggle with the kit. To increase your chance of passing, a bit of practice on handling the synthetic kits before the drug test is a good idea. Q: What is synthetic urine? A: Synthetic urine is prepared in the laboratory, and its chemical composition and physical appearance resemble that of biological urine produced by human metabolism. Since most drug tests include urinalysis, synthetic urine has grown to be very popular among cannabis lovers.
