How to transfer Photos/Videos from iPhone to iPhone 7

There is no doubt that everybody loves everying beautiful and don't want to miss any beautiful meaningful things. So with people's living standard improving, more and more people esthetic appeal's enhancement and in order to record beauty,most of people take photography and videorecording as they hooby. Since just taking photography and videorecording as hooby, so many people don't have professional equipment, people just taking photos and video by using their smartphone. However,in order to catch up with popuaration,and let alone our smartphone has something wrong, we impossible use one mobilephone all the time. In this time, the problem is obvious that our photos and videos will diappear, it is so bad. Is there any software can sove this problem? In this contempary time, only you can't think of,can't do without you. And a software which is named Mobile Transfer can actually help you sove all your problem.

[Mobile Transfer](#) is a multi-functional converter software which is adapted to many smartphone system,such as iOS devices, Samsung, HTC, LG, Sony, Google, HUAWEl, Motorola, ZTE, and more smart phones and tablets. Besides, Mobile Phone can not only

This update is mainly focused on crashes and errors that happened with the previous versions of

transfer photos and video, but also calendar, text messages and so on. Next I will teach you how to transfer photos or videos from iPhone 5 to iPhone 7 or iPhone 7 Plus, and for this example, you will master how to use this software.

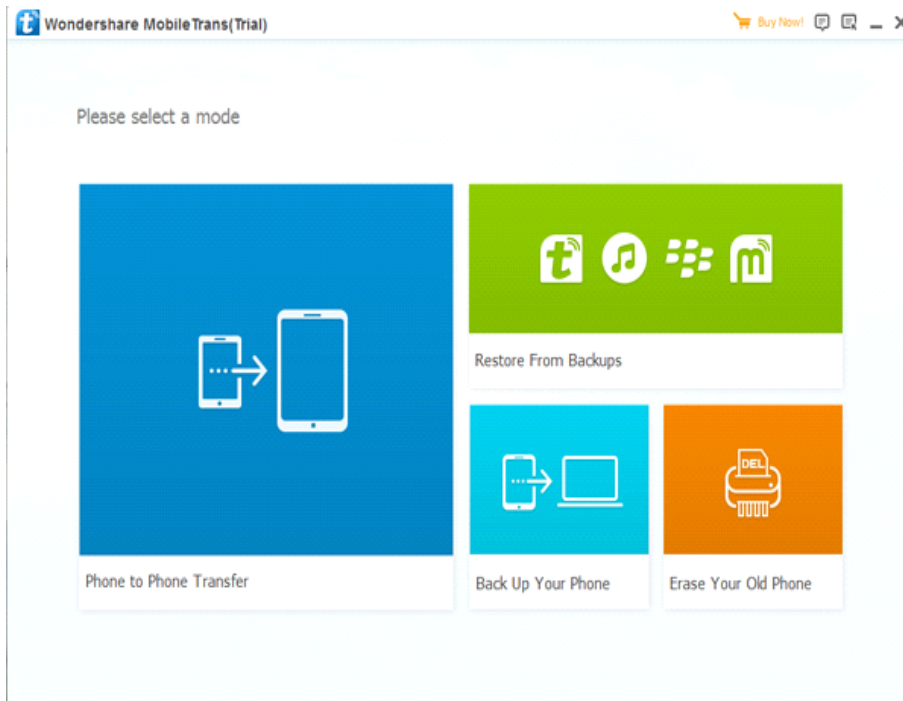

Steps to how to transfer photos or videos from iPhone 5 to iPhone 7 or iPhone 7 Plus

Step 1. Choose and pass into Mobile Transfer

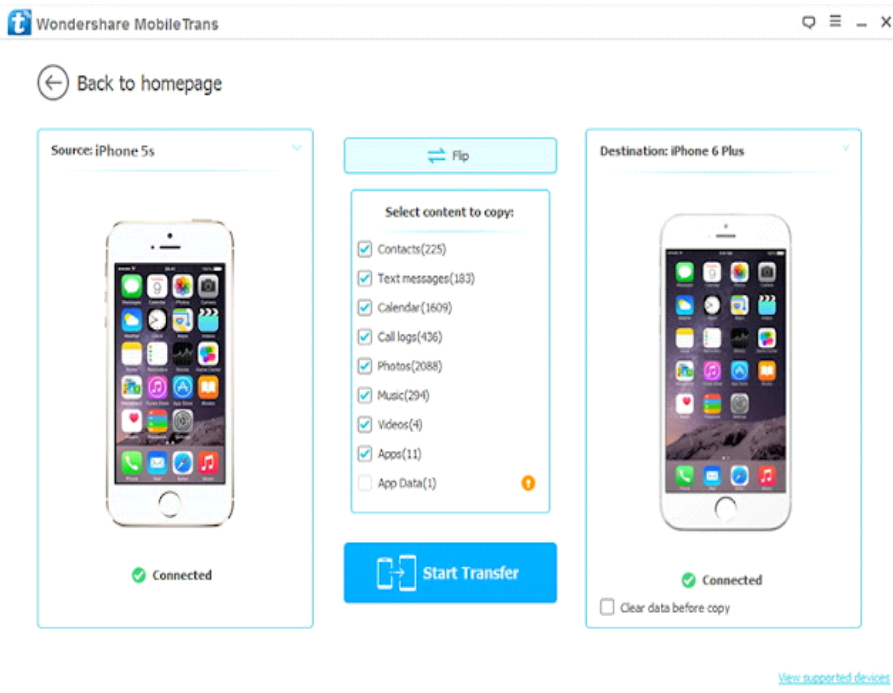

I can't say any more, to use a software, firstly, you should download and install it. Secondly, you can click on "phones to phones Transfer" to let it go forward.

Step 2. Connect your phones to your computer

After then, you should connect your iPhone 5 and iPhone 7 or iPhone 7 Plus to your computer through USB lines. For this step I want to remind you that, you should be sure your iPhone 5 as a source smartphone should display on the left of the computer, the iPhone 7 or iPhone 7 Plus as a destination should display on the right of the computer, otherwise, you also can click on "Fill" to exchange their location.

Step 3. Transfer photos from iPhone 5 to iPhone 7 or iPhone 7 Plus

After your computer test that your phones are connected successfully, you will see a section on your computer which has many choices, here you can choose photo or video, and then click on "start transfer", in this way, your photos or videos will transfer from iPhone 5 to iPhone 7 or iPhone 7 Plus. During the transfer process, you'd better not click on "pause".
