here to free download. If you want to download it, then scroll download and go at the bottom of this post to click on the given downloading link. When you will click on the given downloading link below then it will show you a small window where an option will be given that "save file". At that time you are to just click on that option. When you will click on the option "save file" then the downloading process will be continued further, and when you will not click on that option the downloading will not be processed further. So you must click on that option to get the complete firmware file. The latest flash file which is given here contains 119 MB volume, which has been given here to free download.
