How To Flash The Resurrection Remix On Your Tecno H6

1. Place Resurrection Remix and Gapps at the root of SD card (not in any folder]

2. Boot into recovery, (Backup previous ROM, in case anything goes wrong]

3. Select WIPE, ADVANCED WIPE

4. Tick, SYSTEM, CACHES, DATA & Internal Storage I.e. phone storage if u want to format phone. I recommend you format it. So before flashing copy all your files from phone memory to SD.

5. After, the WIPING PROCESS, Press back to main menu

6. Select INSTALL, locate ROM on SD card and select.

7. When done, WIPE the CACHE AND DALVIK options at the left of your Screen.

8. Go back to main menu and select INSTALL to flash Gapps immediately. (Don't wipe anything this time, just flash it in)

9. Flash SuperSu, if u want to root it.

Canon is one of the pioneer brands available in the market. Ij.start.cannon does not only offer printers, there are different other hardware available including scanners. For scanners also, you will have to make sure to update the drivers on the system so that it can communicate with the devices. With the scanners, you will get the Canon Ij scan utility so that you can scan the documents and images without any issues.

Users usually encounter this Quickbooks error 3371 problem while activating, installing, and opening the software. Once the system is affected by the error, it starts receiving pop-up messages related to the 3371 error. Also, your daily work will be put at a halt which will cause you serious loss of time and productivity. So, start fixing the problem the moment you witness it.
