Latest Specifications and Price Kawasaki Ninja 300 2017

Specifications and Price Kawasaki Ninja 300 - It appears that the automotive market competition tighter homeland makes automotive manufacturer that is doing the latest strategies to attract the attention of consumers and can master the existing market. One of them is in the automotive market segmentation motor sport homeland, which is a quarter liter class is now increasingly dominated by the latest sport bike from Yamaha. However, before the latest motor sport out of Yamaha, Kawasaki, who became the ruler brand with its flagship sport bike Kawasaki Ninja 250 Series. Seemed not to be displaced and not to be outdone Ijo gangs to move quickly to bring motor sport larger cubication Kawasaki Ninja 300. Motor is the latest for the Indonesian automotive market was introduced on February 20, 2015 last. As tough as what Kawasaki Ninja 300's greatness? Well here Mas Sena will review it to comrades all.

Known at some time ago PT. Kawasaki Motor (KMI) immediately launched two products at the same motor sport. Quite surprising indeed, both the CBU motorcycle that **Kawasaki Ninja 300** and Ninja ZX10R Kawasaki marketed in Indonesia in limited quantities. With this it can be said that PT. KMI remain focused on selling their Kawasaki Ninja 250 Series. Both products are original motor sport is a product for the European countries, the United States and several countries in Asia is likely brought to Indonesia to give a different taste. Therefore these two products was imported in limited quantities. For Kawasaki Ninja 300 alone brought in 300 units only. Differences product sport bike Kawasaki which has a larger engine cubication this obviously has a performance and better toughness. As to whether the toughness of the Kawasaki Ninja

300's? Consider the following full review.

Specifications Kawasaki Ninja 300
Design More Aggressive, Macho, dashing and Sporty

Although Kawasaki Ninja 300 in Continental Europe, the United States and some countries in Asia has the same design as the Kawasaki Ninja 250, but obviously with a bigger engine cubication motor sport make it appear more aggressive, macho, handsome and sporty. Starting from the body of the specification Kawasaki Ninja 300 is designed to have sharp indentations and has an aerodynamic system makes this bike a sporty look. For ergonomic indeed the motor is less convenient because it uses the typical motor sport handlebar clamp combined with clear visor at the top of the headlamps can help riders can break down air circulation good.For flanking the driver can be more comfortable for the Kawasaki Ninja 300 has a large tank that help in getting a good aerodynamic system. The front motor that has two lamps that look like glaring giving rise to the impression of violent and aggressive. On the sides of this bike seems to have a firm fairing with grooves make this bike more sporty and spunky. Moreover, combined with the engine block which looks crowded inner fairing this bike so that makes it more aggressive. At the rear of the specification Kawasaki Ninja 300 also looks very sporty accent singlet seat and fender hanging. Coupled with the stop lamp that uses LED lights make this bike more sporty and futuristic.

Speedometers Very Sporty and Modern

While the specification Kawasaki Ninja 300 on the front dashboard has a speedometer that looks very sporty and modern with a mix of analog and digital panel. Ranging from analogue panel, Kawasaki Ninja 300 has indicators engine rotation per minute (RPM), which has a maximum rate of 15,000 RPM, but is limited to 12,000 RPM. You can imagine how this motor sounds when lauched to the max. For digital panel, Kawasaki Ninja 300 has several indicators diantaranya pengukur speed (speedometer), trip meter, fuel meter and digital clock. As for the other panel indicator lights are a variety of functions with a variety of colors starting from the engine, fuel injection (FI), lamps, remote, sein, ABS and others. With a wide range of panel indicators are available on the speedometer of the specification Kawasaki Ninja 300 will certainly provide a complete and easy to read to determine the current condition of the motor is used.

Dimensions More Gahar

Aprilia	Aston Martin	Automotive	
BMW Motorrad	Bajaj	Bugatti	Ferrari
Honda	Hyundai	Kawasaki	
Kawasaki Sport		Lamborghini

Tips And Tricks		Yamaha	details
modifications			

Cubication has a bigger engine, the larger dimension is also matched to make it more comfortable to use. With larger dimensions is then to make this bike look more gahar. Specifications Kawasaki Ninja 300 has dimensions of 79.3 x 28.1 x 43.7 inches with a ground clearance of 5.5 incidan a wheelbase of 55.3 inches is certainly very fit to be riding on urban streets. Unladen weight of Kawasaki Ninja 300, which reached 174 Kg was deemed good enough to compensate for engine performance and still tough for the shot on the streets there. Fuel storage capacity Kawasaki Ninja 300, which reached 17 liters thats very much for the size of the motor sport 300 cc motorcycle so that the front of the pitcher can travel long distances on a single charge in full. Specifications Kawasaki Ninja 300 also features manifold frame Semi-Double Cradle with High-Tensile Steel will provide a balanced performance with engines that make this bike easy to control and easy to maneuver high dikecepatan.

Leg-foot Steady Makin gambot

To compensate for greater engine performance was obvious legs more gambot upgraded to make it more stable for use. Details of the specification tire size of 110/70 Kawasaki Ninja 300 at the front and 140/70 at the rear mounted on wheels measuring 17 inches futuristic design makes footing and appearance of the legs motor sport is more handsome and beautiful. To provide comfort in handling performance Kawasaki Ninja 300 is equipped with hydraulic suspension Telescopic measuring 37 mm at the front and Uni-Track suspension with 5 types of settings. Of course with this type of rear suspension Kawasaki Ninja 300 has five types of hardness or softness of the suspension changes can provide a more stable handling performance in accordance with kondisitrack traversed. For the braking system, the specifications Kawasaki Ninja 300 is equipped with a 290mm disc brake with two-piston hydraulic calipers at the front and 220 mm disc brake with two-piston callipers also hydraulic braking function will create a more reliable and secure.

Engine More Powerful

It is time to review the engine or engine room of specifications Kawasaki Ninja 300 more gahar and this powerful. Kawasaki's flagship sports bike is equipped with a 4 stroke engine with having 2 Parallel Twin-cylinder with a capacity of 296 cc and has a DOHC technology and has a combustion compression 10.6: 1. With the larger engine, the Kawasaki Ninja 300's can give a maximum power reaches 38 hp at 11,000 rpm rev the engine with maximum torque of 27 Nm at rpm to 10,000 rpm. The power will be distributed as a driver through a 6 speed manual transmission with Positive Neutral Finder feature. Of course, with great power makes the pull Kawasaki Ninja 300 is more stable. To supply fuel use with Dual Throttle DFI 32 mm which can gush fuel with stable so as to provide a stable performance as well as fuel consumption efisien. Untuk Ignitionnya system, Kawasaki Ninja 300 using TCBI with Digital Advance that can mix air with the right fuel so that combustion can take place properly. As for the engine cooling system, the specifications Kawasaki Ninja 300 Liquid Cooled choose technologies that can maintain the temperature of the engine in a stable condition when used at any time. For performance berkubikasi 300 cc sport bike is quite good because it can reach a maximum speed of which touch the figure of 190 km / h.

Features Motor Sport

Well the latter the review of the mainstay features of Kawasaki Ninja 300's specifications. Starting from the body features The Light Weight Champion which is the

flagship feature of this bike where handlingnya performance is best in class so as to make anyone menggeber Kawasaki Ninja 300 is in the streets will be convenient, easy and certainly hooked. Then the engine sector are using DFI (Digital Fuel Injection) will provide performance that is soft and linear exertion without symptoms decrease in power. Then there are excellent features on the FCC Clutch Kawasaki Ninja 300 which can provide gear change function either upward or downward fine without requiring a long time so as to provide acceleration and deceleration times faster. Engine block material of Kawasaki Ninja 300 was very tough because it is applied from the engine block Kawasaki Ninja ZX-10R and ZX-6R which Sleeveless material Die Cast Aluminum Cylinder which gives better durability or endurance. For this motor braking system also feels more secure and convenient as specifications Kawasaki Ninja 300 embedded technology ABS (Anti-Lock Brake System), which can prevent the tires locked up when braking hard so that security and driver safety is guaranteed.

Price Kawasaki Ninja 300

Now that the reviews regarding the specifications of motor sport 300cc of Kawasi on all sides. How very complete and interesting not bro and sis? Not feel yes we have arrived at the Kawasaki Ninja 300 reviews of the latest price. But before Mas Sena Kawasaki Ninja 300 revealed the price it is worth examining a little conclusion on the last segment. As we all know to brew premium sport bike Kawasaki 250 cc class alone is cool, sporty and gahar. Especially with a larger version of the machine makes Kawasaki Ninja 300 has a more stable performance, gahar, cool and sporty. Of course with the view that given the Kawasaki Ninja 300 is suitable for those of you who are young in the spirit of on-fire. With a more expensive version of the machine and a CBU products are marketed in the Indonesian automotive market with a limited number dipasarkan then the price could be very high. Then what is the price of the latest Kawasaki Ninja 300 is priced in Indonesia?

Come on bro and sis, differing only bigger cubication 50 cc engine makes the price of Kawasaki Ninja 300 is far soared. From the information Mas Sena get if Ninja 250 is priced starting from Rp. 54.9 Million, the Ninja 300 is priced at Rp. 83.9 million. Wow, the price of Kawasaki Ninja 300 earlier if diliat adrift Rp.29 million from its 250cc class which of course is a tremendous value. That is because the limited number of motor sport in Indonesia is affected luxury vehicle tax applicable to the vehicle engine 250 cc and above. However, according to Mas Sena Kawasaki Ninja 300 even though prices are very high this bike still offers quality, performance and toughness are qualified. Even with the amount that is available only 300 units to make motor sport will be felt exclusively for those who have it.

But keep in mind comrades, if the price of the latest Kawasaki Ninja 300 was the price of On The Road in force in Jakarta. For the other areas may be introduced in different **prices**. So to find out more details on pricing Kawasaki Ninja 300 is priced in the region of all bro, bro can go to the nearest Kawasaki dealer. With a 300cc engine power reaches certainly no doubt make this sport bike riders will feel like being king of the road that has a speed and prowess with this motor artistektur super cool. Kawasaki Kawasaki Ninja 300 as proof of serious play in the market share of motor sport, because in addition to this bike Kawasaki also issued a number of variants that have cubication different machines. Such a review of the price of the latest Kawasaki Ninja 300 in the last segment then close encounter Mas Sena on the occasion of the reviews this time. Read also Kawasaki Ninja 250 and Yamaha R25.
