Avoid dipping the strip past the arrow while testing • Let the test kit rest for five minutes or until the results are clearly visible. Make sure you place the test on a non-absorbent surface • For best results, consider letting the test sit for at least 10 minutes Once the results are visible, it's time to interpret them. Here's a quick overview: • Two Lines: Your result is negative • One Line: Your result is positive • No Lines: Your test was inconclusive There may be times when you're

straight out of luck, and nothing seems to help speed up your drug detox. Well, you could try fake or synthetic urine as a last resort. However, if you decide to go for this option, you want nothing but the best of the best. Cheap, low-quality artificial pee is a surefire way to fail a drug test. So here are some of the most reliable brands around if you plan on buying synthetic urine:

- Testclear: Testclear is an industry leader for drug testing solutions, and their products prove why. For one, their synthetic pee isn't even 'synthetic' because it is dehydrated urine.
